

Year 6 Summer 1 Survival of the Fittest

Topic Overview - In this unit, the children will get a chance to develop their understanding of evolution, inheritance, biological traits that have been passed through previous generations and how animals have adapted to their environment over a longer period to survive.

Big Bang! On Monday 15th April we will immerse ourselves into our new topic by watching a range of Sir David Attenborough documentaries; we will narrate the actions of people within our classroom. We will also research and produce information texts about an extinct animal.

Our Learning Overview

Our Values

Teamwork
Respect
Honesty
Pride

Survival of the Fittest

English

Our core text will be The Origin of Species. We will produce a documentary in the style of Sir David Attenborough about an animal.

Maths

We will focus on a range of concepts and strategies to embed our knowledge of the year 6 curriculum.

Science

Children will learn how and why living things have evolved and adapted to suit their environment.

DT

The children will be developing their textiles skills. This will incorporate sewing, stitching, cutting and measuring.

PHSE

We will be looking further into the importance of healthy relationships in-person and online.

RE

We will continue to develop our understanding of Hinduism, Christianity, and Islam to make connections between beliefs and behaviour in different religions and different faiths linked to Ahimsa (harmlessness), Grace and Ummah (community).

Music

The children will build on their music knowledge from playing the recorder and transfer some of those skills to learning to play the glockenspiel.
