

			Year 6 Summer 2 Topic Overview - Migration			
			Big Bang! - International Day! - Children will be invited to bring in information about where they live, where their parents have lived, or about the history of migration within their own families. They are also welcome to wear any traditional dress or bring in any traditional dishes from their chosen country.			Educational visit:
Our Learning Overview						
			English		Writing – The Arrival Reading – The Journey We will be writing for a range of purposes, linked to our core texts. This will include both fiction and non-fiction pieces.	
			Maths		We will be revising all key concepts in readiness for secondary school. We will also be looking at money, in line with our Enterprise Week work. We will continue to use Magma Maths and Times Tables Rock Stars to support our arithmetic skills.	
<div><div>Our Values</div><div>Teamwork Respect Honesty Pride</div><div>Migration</div></div>			Science		Electricity - Children learn about the appearance and function of different electrical components, including switches, bulbs, buzzers, motors, cells and wires . They match pictures of each component to their electrical symbols. They cut and paste descriptions of how each component functions, or write their own.	
			Humanities		History - We will be finding out about the history of migration – which peoples have migrated at which time and for what reasons? Geography – We will be conducting a field study.	
			Art/ DT		We will be working on our individual enterprise projects ready to sell them on at the end of term.	
			PD/ RE		In RE we will be discussing the theme of ‘What do religions say to us when life gets hard?’ In PD Year Six’s focus will be around transition and awareness of our own mental health and wellbeing.	
			PE		We will be practising athletic skills in time for Sports Day and will also be taking part in weekly swimming lessons at Cygnets.	
Key Texts
